“ *I did not have the honor of spending a lot of time with Allen, but I have spent a lot of time with his son. I know the apple doesn't fall far from the tree and I'm sure he's looking down proudly at his children who carry on his legacy.*

“ *Allen helped me early in my career, helping me with manufacturing questions, part design issues, and "real world" stuff that they just didn't teach you in engineering school. Through the years, you could always rely on his help and guidance. Always hard-working, strong-willed, and unafraid to lend his opinion, while also able to back up his convictions; a person any company would love to have. Personally, I most enjoyed talking with Allen about family, sports, and his career prior to AMF. My best to his family during this time and here's to raising a bottle or glass to Allen!*

“ Allen was always a voice of reason. There was nothing he could not Fix or Improve. Many of us benefited from his expertise in all areas of AMF. I looked forward to spending time together working on projects as I always learned something. Beyond that, he was a genuine person that many will greatly miss. Deepest Condolences to Family & Friends. Hold on to the memories and let his life continue through them.
