“ We always call ourselves sisters from another mother. When John informed me that you were in the hospital and I was to call you but it was too early. But as the day went by I forgot, and to hear the sad news that you have passed, it saddens me. We've had some good times during Day Support with Community Service Board and Mental Health Case Management. Please know you are loved. You have your Wings my Angel 🙏

“ *Girl, you are not supposed to be gone!! I told you I needed you to get better!! I am so horribly sad that you are gone, but I know you are no longer in pain. And it helps me to know that you are with your mom/ dad and sister. I know how much you missed them. I will miss the call each 9/11 thinking of me ,as we were working together when we heard about the twin towers getting struck by planes. You have been such a good good friend for about 25 years now. You are one of the sweetest people I have ever met. You took care of your pets as they were your children, and your children like they were the only people in your world. You took care of John and your home endlessly too. You amazed me with all the energy you had up until the end. You will be missed girl....I could go on forever, but let me close with....I love you always!*
