*My first job in the medical field was at Olde Towne Medical Center. On the first day, I met Denise Bowles. Her bright smile and infecious laugh put me at ease for the rest of the day. I had to start each day going to her office.*

*She talked to me and encouraged me to pursue more education in the medical field and because of her, I received a degree in Medical Coding and Billing.*

*I would hear so many stories of her family and all the adventures they would take. She was a beautiful person, who just by being around her, made you feel comfortable. I would like to extend my deepest sympathy to Randy, Stewart and all of her family.*

*God has definitely received an angel....*

“ I worked with Denise many years ago at Olde Towne Medical Center. I remember so many great memories of us talking and meetings we had. She will be greatly missed. I never thought at this time that she will be gone home. God has a greater plan then our plans. We never know the day or the hour but we know one day it will be our time to go. My prayers are with the family of such a remarkable spirit. I am truly sorry for the family’s loss and until we meet again on the other side. God Bless and comfort you all.

“ Years of working with an individual creates a relationship full of dynamics. I worked with Denise at Olde Towne for 20 years. I can honestly say, she will be missed. I will miss our conversations and will especially miss debating our football teams every season. I remain an Eagles fan, but for right now, with a glint in my eye and a smile on my face, for you I will say “Go Cowboys!” But you only get that one (smile). Rest in Gods arms, my friend until we meet again.
