“ I am truly sorry for your loss of a Husband, Father, and Grand Dad. I worked with Gary in Richmond Tower (old tower). I only knew Gary a short period of time, but every shift with Gary was professional and worry free.
Thanks for the memories Gary. I will see you again!

“ I had the pleasure of working with Gary @ RIC Tower & Approach from 2000, until he retired. What I appreciated most about Gary was his quick wit, sarcasm, and dry sense of humor. Gary was a common sense Controllers' Sup, which was unfortunately way too rare, and was not bashful calling out ridiculous PC FAA policies when appropriate, which I also appreciated. Thoughts & prayers to All of Gary's Family.

“ Over my years of service working for the FAA, there's very few people that I thought could do their job well but I can say Gary was one of the best supervisors I had the honor of working with. He always cared for his people and looked out for them to the best of his ability. Enjoyed my time working with him and hearing some of his stories. My condolences to the family I pray that God will comfort you.

“ I started working with Gary at RIC in 1987. He was a great controller, always calm and could use his quick wit to lighten the mood. He really knew how to run a final, which I think was a point of pride for him. My deepest sympathies to the family. Gary will be greatly missed.

I already miss hearing your voice, seeing your smiling face, your words of wisdom (sometimes unsolicited 😊), and seeing you in your "captain's chair." I know we will meet again in Heaven one day. Until then, I will always miss you. Love your daughter, Karen
