“ Tina and Carolyn, I am so saddened about the loss of your beloved mother. It must be a very difficult time especially with the recent loss of Antonio. You have been very fortunate to have had such loving parents as I have. I believe that both of our parents are joined together in Heaven with Jesus and at rest as we will be someday. Your mother has left such a wonderful impression on me that I will always cherish. Sometimes I wish I took her advice to continue on to medical school after college but I was still unsure of which path in life to follow when I grew up. I guess I was following several paths at once. I know that your mother was a very compassionate and well respected physician as told to me by my patients and colleagues. A lot of radiology students I met used to fear working in Riverside's OR but your mother had a way of making them less anxious when working with grumpy surgeons. I pray that your family and loved ones will heal from your loss and cherish the good memories. May God Bless you all. Love, Frank
