“ I first met Pat in his IT office at Richmond Memorial in the OR of all places. We enjoyed working on many projects over the years. He was the best listener and a true friend.

“ Pat, Becky, Todd and I have been neighbors and friends for 36 years. We became the best of friends when we just happened to be in Myrtle Beach at the same time. Pat was always the life of the party. I have the best memories of him at family reunions, neighborhood parties, Christmas Eve at the Crocker's, 4th of July parties, many weekends out on the Chickahominy River, and the list goes on. He was one of the good ones and I cherish the memories that our families built together. Here's to you Paaat, the man, the legend, love you man!

“ Pat was more than a client - he was, as we all know within the Pat Blackburn family, a demanding steward of Bon Secours. He worked, lead and managed IT related services the only way Pat knew - 7x24x365 - in person! I had the pleasure of supporting Pat and his team throughout the majority of my career (30+ years) and recall getting those early morning or late night calls from Pat asking me why am I not already there! Pat was more than a client to me - he was my mentor and friend. I owe him more than I could have ever repaid - rest peacefully Pat!

“ *This news hurts my heart. I had the pleasure of working with and for Pat for almost 29 years. He gave me the chance to grow in those years until I retired. Pat was not only a boss but also a friend. Becky, Jade, Patrick and the rest of the family may God give you strength during this difficult time. RIP my dear friend the world was a better place with you in it.*

“o many great memories with Pat. The time we lost commercial power and the backup generator failed shortly after implementing Epic. Planning and executing the move of the local systems’ data centers to the EDC. The jokes he would tell, and the way he told them. Pat was a hard-working, professional, southern gentleman. Ba at peace.

“ I had the pleasure of working with Pat for many years at Bon Secours. We spent time together on several IT projects and each of them was more successful when Pat was involved. As is inevitable in the world of IT, things go wrong or systems go down unexpectedly - but as soon as we heard Pat's voice on the calls to diagnose and respond, we breathed a sigh of relief, knowing that we were in good hands. Pat's pragmatic approach, sense of humor, and command of all things IT was something to behold. Pat - you are fondly remembered, and you will be missed.
