“ You guys have been key in our lives for many years...Bob was the initial contact for us to stay at YWAM Spain when we came in 1984 to spy out the land. Then when we moved to Spain in 1985, YWAM became our point of contact for the first year in Spain and we heard so many of his teachings and sharing. We were invited to be a part of Thanksgiving there at the base and you always made us feel like family - thanks to you guys and your value of family!

Bob encouraged us to do our Crossroads DTS in Kona so our kids could be in the Foundation School (which he started) and all three were baptized there that summer. Then in 1997, he gave us a solution to the needs for inner healing in the DTS' with the Ancient Paths seminars - and mentored us and got us to be a part! We still are after 18 years.

We have always loved and appreciated Bob's heart for Israel, the history of the Jews and the Spanish connection to that and spent many hours listening to him talk about that. Our last precious memory was the 6 months you spent here in YWAM in 2013-14- you listened to our story and never condemned, just encouraged and loved us. That was Bob - seeing beyond the sin and problems to the identity and destiny! It was so special to have you in our home for that Thanksgiving and just be able to sing, laugh and share (Terry loved that he had someone who understood football!).

There are so many more memories, but we are just grateful for the opportunity to have known Bob, having worked together in some things and just having been friends! We will miss you tremendously, Bob!

“ *Very thankful for this man's life, he ministered to be when I was so broken I had difficulty expressing myself. I am sure he is happy with our Lord. Grace to his wife.*
