“ Sue, You will be missed I can remember all of the laughs and talks we would share with each other and the cutting up we would do growing up in school. You and I always had that seriousness silliness about us but this was a shock to me for sure. Don't worry I will continue to be there for baby girl Meghan for sure. I love and miss you girly! Friends forever! ☐

“ Susan, I remember those days volunteering at Prov Forge Vol Rescue Squad. You were such a dedicated person who we all will greatly miss. I would read your facebook posts to see how you were doing as well as David and you always tried to keep yourself occupied even though you was dealing with life and what it brings. I could not believe that you had transitioned on but heaven has another angel now to watch over us.

“ Rest in Peace Susan. Your life here on earth was not easy, but you always made it through. I can not believe you are gone. I always thought you could pull through anything. I guess God needed you with him. You will always hold a special place in my heart. The sometimes most annoying and crazy, but always loving cousin a person could have. I miss you already.
