“ Mr. Kirby taught me Algebra in 8th and Geometry in 9th at Dinwiddie Junior High annex 1983 and 84! So sorry to hear of his passing. He used to say to us maybe if you all put your heads together I might get one decent brain 🙄

“ I had Mr Kirby for Algebra I in the late 1960's. He would wear a certain tie when he was going to give us a pop quiz. He was a good teacher. So sorry to hear of his passing.

“ Mr Kirby was a sub teacher when I was in school, he was also one of my trainers over 18 years ago when I started driving a bus. In school he definitely didn't take mess from any students, so I was nervous when I started driving, he drove along side of me for a few more years until he left Dinwiddie, and he was the sweetest. My thoughts and prayers to his wife and family ❤️❤️

He was my 8th grade Math teacher. If I didn't understand the problem, he would stand there and explain it for me. When I started training for the bus, he was one of the teachers along with Mariellen Trent. He trained me on the bus and on the "tank" as I called it, bus 29, which was a pusher. We enjoyed our talks about school and when he taught us. I was sad when he moved, but would enjoy his occasional visits to Dinwiddie. Even though I slacked off writing or calling and checking on him and Eileen, I still thought of him. Its funny, I have been thinking of him a lot this week. Now I know why. R.I.P.U are n a much better world, driving for the Lord, along with Mary Lynch and a few more of our former drivers. My sympathy goes out to Eileen and his extended family.
